Dear Mr. Bahl,

Effective immediately, Camp Take Notice is actively participating in Pizza in the Park which occurs every Friday evening at Liberty Plaza. We have assumed a leadership role in ensuring this valuable service is provided. As a result, it is important that Camp Take Notice be informed of any decisions, requests or communications that the Parks and Recreation department and/or the Community Services department undertakes regarding the status of Liberty Plaza and Pizza in the Park.

Therefore, we are requesting that we receive via mail or email, in a timely manner, any official Parks and Recreation department and/or Community Services department declarations regarding this event. The Vineyard is currently taking a break from Pizza in the Park and is not guaranteed of returning to its former role. Consequently, failure to keep Camp Take Notice up-to-date could result in messages not reaching the parties that have the ability to enact and enforce any necessary action. It is our desire that Pizza in the Park carry on its wonderful tradition and be a credit to the whole community. Working together and communicating effectively will allow this to happen and reflect positively on all of us.

The signatures to this letter are a true indication of the solidarity we have from the community in this matter. Thank you for your time and attention.

Sincerely,

The Camp Take Notice Subcommittee for the Right to Eat and Receive Humanitarian Aid
