

Director's Report – November 2013

1. AADL's Halloween celebration events were held in conjunction with the Main Street Association's events, and hundreds of children, parents and caregivers attended four music and storytime programs held on October 31 at the Downtown Library and at Pittsfield Branch. We are grateful to our Downtown businesses and partners for their interest in keeping Halloween fun and safe in our community.
2. The Metropolitan Detroit Medical Library group is hosting an event on November 21, 2013 at the Royal Oak Public Library. The Affordable Care Act Initiatives: Perspectives from Public Libraries intends to share with the audience how public library staff has educated themselves and the general public on the Affordable Care Act. AADL Manager, Sherlonya Turner, is one of three persons on the presentation panel.
3. On November 11, 2013 we welcome Raphaela Muller to AADL. Ms. Muller is a librarian at the public library of Munich, Germany and is visiting AADL for a week that coincides with International Games Day. She has followed AADL in the press and online and has attended presentations made by IT and Productions Associate Director Eli Neiburger when he visited Germany. It is our pleasure to have Ms. Muller at AADL, and we appreciate the compliment paid to us by the public library in Munich.
