

**Victim Information**

Hate crime incidents are identified on the motivation of the offender(s). Law enforcement investigations determine the objective facts to lead to a reasonable conclusion that the offender's actions were motivated by bias against a racial, religious, ethnic/national origin, mental/physical disability, or sexual-orientation group. Accurate data collection of hate crimes depends heavily on proper training of law enforcement to recognize such incidents and the cooperation and desire of communities/victims to report these incidents to law enforcement.

**Definition:** Hate Crime is a criminal offense committed against a person or property which is motivated in whole or in part, by the offender's bias against a race/national origin, religion, sexual-orientation, mental/physical disability or ethnicity.
