(2) The secretary of state may conduct tests of a voting system in order to select the uniform voting system. (6) This section does not apply until money is appropriated for the purpose of selecting, acquiring, and implementing the uniform voting system. If federal money becomes available for the purposes described in this section, the secretary of state shall, and the legislature intends to, take the steps necessary to qualify for and appropriate that money for the purposes described in this section.

Sec. 523. (1) At each election, before being given a ballot, each registered elector offering to vote shall identify himself or herself by presenting an official state identification card issued to that individual pursuant to Act No. 222 of the Public Acts of 1972, being sections 28.291 to 28.295 of the Michigan Compiled Laws, an operator's or chauffeur's license issued to that individual pursuant to the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being sections 257.1 to 257.923 of the Michigan Compiled Laws, or other generally recognized picture identification card and by executing an application showing his or her signature or mark and address of residence in the presence of an election official. If an elector's signature contained in the qualified voter file is available in the polling place, the election official shall compare the signature upon the application with the digitized signature provided by the qualified voter file. If an elector's signature is not contained in the qualified voter file, the election official shall process the application in the same manner as applications are processed when a voter registration list is used in the polling place. If voter registration lists are used in the precinct, the election inspector shall determine if the name on the application to vote appears on the voter registration list. If the name appears on the voter registration list, the elector shall provide further

identification by giving his or her date of birth or other information stated upon the voter registration list. In precincts using voter registration lists, the date of birth may be required to be placed on the application to vote. If the signature or an item of information does not correspond, the vote of the person shall be challenged, and the same procedure shall be followed as provided in this act for the challenging of an elector. If the person offering to vote has signed the registration card or application by making a mark, the person shall identify himself or herself by giving his or her date of birth, which shall be compared with the date of birth stated upon the registration card or voter registration list, or shall give other identification as may be referred to upon the registration card or voter registration list. If the elector does not have an official state identification card, operator's or chauffeur's license as required in this subsection, or other generally recognized picture identification card, the individual shall sign an affidavit to that effect before an election inspector and be allowed to vote as otherwise provided in this act. However, an elector being allowed to vote without the identification required under this subsection is subject to challenge as provided in section 727.

(2) If, upon a comparison of the signature or other identification as required in subsection (1), it is found that the applicant is entitled to vote, the election officer having charge of the registration list shall approve the application and write his or her initials on the application, after which the number on the ballot issued shall be noted on the application. The application shall serve as 1 of the 2 poll lists required to be kept as a record of a person who has voted. The application shall be filed with the township, city, or village clerk. If voter registration cards are used in the precinct, the date of the election shall be noted by 1 of the election officials upon the precinct registration card of each elector voting at an election. If voter registration lists are used in the precinct, the election official shall clearly indicate upon the list each elector voting at that election. The clerk of a city, village, or township shall maintain a record of voting participation for each registered elector.

168.523a Individual not listed on voter registration list; issuance of ballot; procedure.

Sec. 523a. (1) If an individual who has applied to register to vote on or before the close of registration appears at a polling place on election day and completes an application under section 523 is not listed on the voter registration list, the election inspector shall issue a ballot to the individual as follows:

(a) For an individual who presents a receipt issued by a department of state office, a designated voter registration agency, or the elector's county, city, or township clerk's office verifying the acceptance of a voter registration application before the close of registration and completes a new voter registration application, the election inspector shall allow the individual to vote a ballot in the same manner as an elector whose name is listed on the voter registration list.

(b) For an individual who does not present a receipt verifying the acceptance of a voter registration application under subdivision (a), the election inspector shall determine whether the individual is in the appropriate polling place based on residence information provided by the individual. The election inspector shall review any documents or maps in the polling place or communicate with the city or township clerk to verify the appropriate polling place for the individual. The election inspector shall direct an individual who is not in the appropriate polling place to the appropriate polling place. If the individual refuses to go to the appropriate polling place, the election inspector shall issue the individual a provisional ballot that shall be processed according to subsection (5).

(2) Except for an individual who produces a receipt under subsection (1)(a), the election inspector shall require an individual who is not listed on the voter registration list to execute a sworn statement affirming that the individual submitted a voter registration application before the close of registration and is eligible to vote in the election. An individual who provides false information in a signed sworn statement under this subsection is guilty of perjury. An individual signing a sworn statement shall complete a new voter registration application. The individual shall state the approximate date and in what manner the registration application was submitted:

- (a) To a department of state office.
- (b) To a designated voter registration agency.

(c) To the office of his or her county, city, or township clerk.

(d) By a mailed application.

(3) The election inspector shall contact the city or township clerk to verify whether the individual who signed the sworn statement is listed in the registration records of the jurisdiction or whether there is any information contrary to the content of the sworn statement.

(4) If the city or township clerk verifies the elector information and finds no information contrary to the information provided by the individual in the sworn statement and the individual presents a Michigan operator's or chauffeur's license, department of state issued personal identification card, other government issued photo identification card, or a photo identification card issued by an institution of higher education in this state described in section 6 of article VIII of the state constitution of 1963 or a junior college or community college established under section 7 of article VIII of the state constitution of 1963 that contains a current residence address to establish his or her identity and residence address, the individual shall be permitted to vote a provisional ballot on election day. Before the provisional ballot is tabulated on election day, election inspectors shall process the ballot as a challenged ballot under sections 745 and 746.

(5) If the election inspector is not able to contact the city or township clerk, the individual is not in the correct precinct, the individual presents identification other than a Michigan operator's or chauffeur's license, department of state issued personal identification card, other government issued photo identification card, or a photo identification card issued by an institution of higher education in this state described in section 6 of article VIII of the state constitution of 1963 or a junior college or community college established under section 7 of article VIII of the state constitution of 1963 that contains a current residence address, or the individual is unable to present any identification, the individual shall be issued a provisional ballot that is not tabulated on election day but is secured for verification after the election. A provisional ballot shall also be issued under this subsection to a voter who presents a Michigan operator's license, chauffeur's license, department of state personal identification card, other government issued photo identification card, or a photo identification card issued by an institution of higher education in this state described in section 6 of article VIII of the state constitution of 1963 or a junior college or community college established under section 7 of article VIII of the state constitution of 1963 that does not bear the voter's current residence address, if the voter also presents a document to establish the voter's current residence address. The election inspector shall accept a document containing the name and current residence address of the voter as sufficient documentation to issue a provisional ballot if it is 1 of the following documents:

(a) A current utility bill.

(b) A current bank statement.

(c) A current paycheck, government check, or other government document.

(6) A provisional ballot shall be placed in a provisional ballot return envelope prescribed by the secretary of state and delivered to the city or township clerk after the polls close in a manner as prescribed by the secretary of state.

(7) For a provisional ballot voted under subsection (4), the election inspector shall provide the voter with a notice that his or her ballot has been tabulated. For a provisional ballot voted under subsection (5), the election inspector shall provide the voter with a notice that the voter's information will be verified by the clerk of the jurisdiction within 6 days after the election to determine whether the ballot will be tabulated and, if the ballot is not tabulated, to determine the reason it was not tabulated. A clerk of a jurisdiction shall provide a free access system for the voter to determine whether the ballot was tabulated. The free access system may include a telephone number that does not require a toll charge, a toll-free telephone number, an internet website, or a mailed notice.

(8) As used in this section and sections 813 and 829, "provisional ballot" means a special ballot utilized for an individual who is not listed on the voter registration list at the polling place that is tabulated only after verification of the individual's eligibility to vote.

(2) The petition shall be in a form providing a space for the circulator and each elector who signs the petition to print his or her name. The secretary of state shall prescribe the location of the space for the printed name. The failure of the circulator or an elector who signs the petition to print his or her name, to print his or her name in the location prescribed by the secretary of state, or to enter a zip code or his or her correct zip code does not affect the validity of the signature of the circulator or the elector who signs the petition. The invalidity of 1 or more signatures on a petition does not affect the validity of the remainder of the signatures on the petition.

(6) An individual shall not sign more nominating petitions for the same office than there are persons to be elected to the office. An individual who violates this subsection is guilty of a misdemeanor.

(7) An individual shall not do any of the following:

(b) Disqualify from the ballot a candidate who committed, aided or abetted, or knowingly allowed the violation of subsection (7) on a petition to nominate that candidate.

(10) If an individual violates subsection (7) and the affected petition sheet is filed, each of the following who knew of the violation of subsection (7) before the filing of the affected petition sheet and who failed to report the violation to the secretary of state, the filing official, if different, the attorney general, a law enforcement officer, or the county prosecuting attorney is guilty of a misdemeanor, punishable by a fine of not more than \$500.00 or imprisonment for not more than 1 year, or both:

(11) If after a canvass and a hearing on a petition under section 476 or 552 the board of state canvassers determines that an individual has violated subsection (10), the board of state canvassers may impose 1 or more of the following sanctions:

(a) Impose on the organization or other person sponsoring the petition drive an administrative fine of not more than \$5,000.00.

(b) Charge the organization or other person sponsoring the petition drive for the costs of canvassing a petition form on which a violation of subsection (7) occurred.

Sec. 552. (1) The county or city clerk, after the last day specified in this act for receiving and filing nominating petitions, shall immediately certify to the proper board or boards of election commissioners in the city, county, district, or state the name and post office address of each party candidate whose petitions meet the requirements of this act, together with the name of the political party and the office for which he or she is a candidate.

(2) If the county clerk receives a sworn complaint, in writing, questioning the registration or genuineness of the signature of the circulator or of a person signing a petition filed with the county clerk for an office, the county clerk shall commence an investigation. The county clerk shall cause the petition that he or she considers necessary to be forwarded to the proper city clerk or township clerk to compare the signatures appearing on the petition with the signatures appearing on the registration record as required by subsection (13). The county clerk may conduct the signature comparisons as required by subsection (13) using the digitized signatures in the qualified voter file, in lieu of requesting the local clerk to conduct the signature comparison. If the request has been made by the county clerk, the city clerk or township clerk shall complete the investigation and report his or her findings to the county clerk within 7 days after the request. The investigation shall include the validity of the signatures and the genuineness of a petition as is specified in the sworn complaint and may include any other doubtful signatures or petitions filed on behalf of the candidate against whose petitions the sworn complaint is directed, as the county clerk considers necessary. The county clerk is not required to act on a complaint respecting the validity and genuineness of signatures on a petition unless the complaint sets forth the specific signatures claimed to be invalid and the specific petition for which the complaint questions the validity and genuineness of the signature or registration of the circulator, and unless the complaint is received by the county clerk within 7 days after the deadline for the filing of the nominating petitions.

(3) In addition to the duty specified in subsection (2) for the examination of petitions, the county clerk, on his or her own initiative, on receipt of the nominating petitions, may examine the petitions, and if after examination the county clerk is in doubt as to the validity of the registration or genuineness of the signature of the circulator or persons signing or purported to have signed the petitions, the county clerk shall commence an investigation. Subject to subsection (13), the county clerk shall cause the petitions in question to be forwarded to the proper city clerk or township clerk to compare the signatures appearing on the petitions with the

signatures appearing on the registration records. The county clerk may conduct the signature comparisons as required by subsection (13) using the digitized signatures in the qualified voter file, in lieu of requesting the local clerk to conduct the signature comparison.

(4) The clerk of a political subdivision shall cooperate fully with the county clerk in a request made to the clerk by the county clerk in determining the validity of doubtful signatures by checking the signatures against registration records in an expeditious and proper manner.

(5) At least 2 business days before the county clerk makes a final determination on challenges to and sufficiency of a petition, the county clerk shall make public its staff report concerning disposition of challenges filed against the petition. Beginning with the receipt of any document from local election officials under subsection (2) or (3), the county clerk shall make that document available to petitioners and challengers on a daily basis.

(6) Upon the completion of the investigation or examination, the county clerk shall immediately make an official declaration of the sufficiency or insufficiency of nominating petitions for which a sworn complaint has been received or of the sufficiency or insufficiency of nominating petitions that the county clerk has examined or investigated on his or her own initiative. A person feeling aggrieved by a determination made by the county clerk may have the determination reviewed by the secretary of state by filing a written request with the secretary of state within 3 days after the official declaration of the county clerk, unless the third day falls on a Saturday, Sunday, or legal holiday, in which case the request may be filed not later than 4 p.m. on the next day that is not a Saturday, Sunday, or legal holiday. Alternatively, the aggrieved person may have the determination of the county clerk reviewed by filing a mandamus, certiorari, or other appropriate remedy in the circuit court. A person who filed a nominating petition and feels aggrieved by the determination of the secretary of state may then have that determination reviewed by mandamus, certiorari, or other appropriate remedy in the circuit court.

(7) A city clerk with whom nominating petitions are filed may examine the petitions and investigate the validity and genuineness of signatures appearing on the petitions. Subject to subsection (13), the city clerk may check the signatures against registration records. The city clerk shall make a determination as to the sufficiency or insufficiency of the petitions upon the completion of the examination or investigation, and shall make an official declaration of the findings. A person feeling aggrieved by the determination has the same rights of review as in case of a determination by the county clerk.

(8) Upon the filing of nominating petitions with the secretary of state, the secretary of state shall notify the board of state canvassers within 5 days after the last day for filing the petitions. The notification shall be by first-class mail. Upon the receipt of the nominating petitions, the board of state canvassers shall canvass the petitions to ascertain if the petitions have been signed by the requisite number of qualified and registered electors. Subject to subsection (13), for the purpose of determining the validity of the signatures, the board of state canvassers may cause a doubtful signature to be checked against the qualified voter file or the registration records by the clerk of a political subdivision in which the petitions were circulated. If the board of state canvassers receives a sworn complaint, in writing, questioning the registration of or the genuineness of the signature of the circulator or of a person signing a nominating petition filed with the secretary of state, the board of state canvassers shall commence an investigation. Subject to subsection (13), the board of state canvassers shall verify the registration or the genuineness of a signature as required by subsection (13). If the board is unable to verify the genuineness of a signature on a petition, the board shall cause the petition to be forwarded to the proper city clerk or township clerk to compare the signatures on the petition with the signatures on the registration record, or in some other manner determine whether the signatures on the petition are valid and genuine. The board of state canvassers is not required to act on a complaint respecting the validity and genuineness of signatures on a petition unless the complaint sets forth the specific signatures claimed to be invalid and the specific petition for which the complaint questions the validity and genuineness of the signature or the registration of the circulator, and unless the complaint is received by the board of state canvassers within 7 days after the deadline for filing the nominating petitions. After receiving a request from the board of state canvassers under this subsection, the clerk of a political subdivision shall cooperate fully in determining the validity of doubtful signatures by rechecking the signatures against registration records in an expeditious and proper manner. The board of state canvassers may extend the 7-day challenge period if it finds that the challenger did not receive a copy of each petition sheet that the challenger requested from the secretary of state. The extension of the challenge deadline under this subsection does not extend another deadline under this section.

(9) The board of state canvassers may hold a hearing upon a complaint filed or for a purpose considered necessary by the board of state canvassers to conduct an investigation of the petitions. In conducting a hearing, the board of state canvassers may issue subpoenas and administer oaths. The board of state canvassers may also adjourn periodically awaiting receipt of returns from investigations that are being made

or for other necessary purposes, but shall complete the canvass not less than 9 weeks before the primary election at which candidates are to be nominated. Before making a final determination, the board of state canvassers may consider any deficiency found on the face of the petition that does not require verification against data maintained in the qualified voter file or in the voter registration files maintained by a city or township clerk.

(10) At least 2 business days before the board of state canvassers meets to make a final determination on challenges to and sufficiency of a petition, the board shall make public its staff report concerning disposition of challenges filed against the petition. Beginning with the receipt of any document from local election officials under subsection (8), the board of state canvassers shall make that document available to candidates and challengers on a daily basis.

(11) An official declaration of the sufficiency or insufficiency of a nominating petition shall be made by the board of state canvassers not less than 60 days before the primary election at which candidates are to be nominated. At the time of filing a nominating petition with the secretary of state, the person filing the petition may request a notice of the approval or rejection of the petition. If a request is made at the time of filing the petition, the secretary of state, immediately upon the determination of approval or rejection, shall transmit by registered mail to the person making the request an official notice of the sufficiency or insufficiency of the petitions.

(12) A person who filed a nominating petition with the secretary of state and who feels aggrieved by a determination made by the board of state canvassers may have the determination reviewed by mandamus, certiorari, or other appropriate process in the supreme court.

(13) The qualified voter file may be used to determine the validity of petition signatures by verifying the registration of signers. If the qualified voter file indicates that, on the date the elector signed the petition, the elector was not registered to vote, there is a rebuttable presumption that the signature is invalid. If the qualified voter file indicates that, on the date the elector signed the petition, the elector was not registered to vote in the city or township designated on the petition, there is a rebuttable presumption that the signature is invalid. The qualified voter file shall be used to determine the genuineness of a signature on a petition. Signature comparisons shall be made with the digitized signatures in the qualified voter file. The county clerk or the board of state canvassers shall conduct the signature comparison using digitized signatures contained in the qualified voter file for their respective investigations. If the qualified voter file does not contain a digitized signature of an elector, the city or the township clerk shall compare the petition signature to the signature contained on the master card.

(14) Not less than 60 days before the primary election at which candidates are to be nominated, the secretary of state shall certify to the proper boards of election commissioners in the various counties in the state, the name and post office address of each partisan or nonpartisan candidate whose petitions have been filed with the secretary of state and meet the requirements of this act, together with the name of the political party, if any, and the office for which he or she is a candidate.

(2) If, in a district that is a county or entirely within 1 county, 2 or more candidates, including candidates for nonpartisan offices, for the same office have the same or similar surnames, a candidate may file a written request with the board of county election commissioners for a clarifying designation. The request shall be filed not later than 3 days after the last date for filing nominating petitions. Not later than 3 days after the filing of the request, the board of county election commissioners shall determine whether a similarity exists and whether a clarifying designation should be granted. In a district located in more than 1 county, the board of state canvassers shall make a determination whether to grant a clarifying designation upon the written request of a candidate who files nominating petitions with the secretary of state. The request shall be filed with the state board of canvassers not later than 5 days after the last date for filing nominating petitions. The board of state canvassers shall make its determination at the same time it makes a declaration of the sufficiency or insufficiency of nominating petitions in compliance with section 552.

(3) In each instance, the determining board shall immediately notify each candidate for the same office as the requester that a request for a clarifying designation has been made and of the date, time, and place of the hearing. The requester and each candidate for the same office shall be notified of the board's determination by first-class mail sent within 24 hours after the final date for the determination. The term "occupation" includes a currently held political office, even though it is not the candidate's principal occupation, but does not include reference to a previous position or occupation.

(4) If there are 2 candidates with the same or similar surnames and 1 of the candidates is entitled to an incumbency designation by section 24 of article VI of the state constitution of 1963, no other designation shall be provided for the other candidate with the same or similar surname. If there are more than 2 candidates with the same or similar surname and 1 of the candidates is entitled to an incumbency designation by section 24 of article VI of the state constitution of 1963, a clarifying designation may be given to the other candidates with the same or similar surname. Except for an incumbency designation under section 24 of article VI of the state constitution of 1963, if 2 or more candidates with the same or similar surnames are related, the board shall only print the residence or date of birth of each of the candidates as a clarifying designation. Sec. 619. (1) National convention delegates elected under this act shall be elected on a basis that insures that the proportion of the total national convention delegation that is uncommitted or is committed to each presidential candidate equals, as near as is practicable, the proportion of the popular vote that was cast as uncommitted or for each respective presidential candidate of the particular political party's total popular vote at the presidential primary election. The determination of these proportions shall only include the votes cast as uncommitted, or for a particular presidential candidate, if the total vote cast as uncommitted, or for that particular presidential candidate, equals at least the percentage determined by state political party rule of the total vote cast for all presidential candidates or as uncommitted for that political party at that presidential primary election.

(2) Before an individual may be elected as a delegate to the national convention of a political party, that individual shall file an affidavit as required under section 562b. If the individual names a presidential candidate in the affidavit under section 562b(1)(a), that individual shall also be certified by the presidential candidate or the presidential candidate's designee as a delegate committed to that presidential candidate. A national convention delegate shall be bound to vote for the presidential candidate for whom he or she designated commitment, if any, under section 562b and as certified by the presidential candidate or the presidential candidate's designee under this section before the delegate is elected as a national delegate until the end of the first ballot at the national convention. However, a national convention delegate is released from that commitment by the withdrawal of that presidential candidate from contention for that party's nomination or by written release of that presidential candidate to the chairperson of the national convention, whichever is earliest.

(3) If a vacancy occurs in the elected delegation, it shall be filled by an alternate selected by the caucus for the candidate to whom the original delegate was committed, and the alternate shall be required to meet the same qualifications of the delegate being replaced.

(4) A person who is a delegate at large to a state convention of his or her political party only by virtue of being a member of the state legislature as provided in section 595a shall not participate in the selecting of delegates to his or her political party's national convention. This subsection does not prohibit that person from participating in other convention business. Neither this provision nor any other provision of law shall be understood to restrict the opportunity of any registered elector in this state, including all public officials, to be elected as a delegate to any county, district, state, or national convention of the elector's political party.

The challenge shall be in writing, specifically identify the reason for the challenge, and include any available documentation supporting the challenge. The county chair of the political party shall file a challenge under this subsection with the board of election commissioners not later than 4 business days following receipt of the board of election commissioners' notice of appointed election inspectors under subsection (2).

If the challenge alleges that the appointee is a known active advocate of a political party other than the one on the appointee's application, the board of election commissioners immediately shall provide the appointee with a copy of the challenge by certified mail, personal service, or electronic transmission capable of determining date of receipt. The appointee may respond to the challenge within 2 business days after receiving a copy of the challenge. A response shall be by affidavit addressing the specific reasons for the challenge. Failure to respond shall result in revocation of the appointment. Within 2 business days after receiving the challenge or a response from the appointee, whichever is later, the board of election commissioners shall make a final determination and notify the appointee and the county chair of the political party of the determination.

(5) If a vacancy occurs in the office of chairperson or in the office of election inspector before election day, the chairperson of the board of election commissioners shall designate some other properly qualified applicant or election inspector as chairperson or some other qualified applicant as election inspector, as applicable, subject to this section. 168.679a Receiving board; appointment and duties of inspectors; review of poll book and statement of returns; corrective action; delivery.

Sec. 679a. (1) The legislative body of a city, township, or village may, by resolution, provide that at an election at which the ballots are counted and certified at the precinct, 1 or more additional boards of election inspectors be appointed to serve as receiving boards. For a precinct having receiving boards, the board of election commissioners shall appoint a receiving board consisting of 2 or more election inspectors, with an equal number from each major political party, and shall appoint an equal number of election inspectors from each major political party.

(2) Not less than 2 election inspectors in a precinct, representing each of the major political parties, shall deliver to the receiving board for that precinct a sealed ballot container containing the voted ballots, and, in a separate sealed envelope, the poll book and statement of returns. The poll book and statement of returns may be enclosed in a single sealed envelope.

(3) The receiving board shall open the sealed envelope and review the poll book and statement of returns to determine both of the following:

(a) That the ballot container is properly sealed and the seal number is properly recorded in the poll book and the statement of returns. If the ballot container is not properly sealed or there is a discrepancy with the seal number recorded in the poll book or the statement of returns, the election inspectors who delivered the ballot container and the receiving board shall together take the necessary steps to correct the discrepancy. The election inspectors and the receiving board shall note the discrepancy and the corrective action in the remarks section of the poll book and all shall sign the notation.

(b) That the number of individuals voting recorded in the poll book equals the number of ballots issued to electors, as shown by the statement of returns. If the number of individuals voting as shown by the poll book does not equal the number of ballots counted as shown by the statement of returns, and if an explanation of the discrepancy has not been noted in the poll book, the receiving board shall ask the election inspectors about the discrepancy, note the explanation in the poll book, and all shall sign the notation.

(4) If the poll book or statement of returns has been erroneously sealed in the ballot container, the election inspectors may open the ballot container and remove the poll book or statement of returns. The elections inspectors and receiving board shall note the corrective action in the remarks section of the poll book and all shall sign the notation before placing the poll book or statement of returns in a separate sealed envelope. If the statement of returns was sealed in the ballot container and the poll book was sealed in an envelope, the poll book shall be removed from the sealed envelope for the notation of corrective action to be recorded before placing the poll book and statement of returns in a sealed envelope. The receiving board shall notify the clerk of the board of canvassers responsible for canvassing all or a portion of the election of the corrective action taken.

(5) When the receiving board has completed the review under subsection (3), the receiving board shall place the poll book and statement of returns in the appropriate envelope, sealed with a red paper seal and initialed by the receiving board. If permitted by the clerk of the board of canvassers, the poll books and statement of returns from more than 1 precinct may be included and delivered in a single envelope.

Sec. 696. (1) The board of election commissioners in each county shall have the name of each candidate for federal, state, district, county, and township offices at an election printed on 1 ballot, separate from any other ballot. The name of each candidate of each political party shall be placed in a separate column on the ballot under the name and vignette of the party with the name of each candidate opposite the name of the office for which the candidate was certified to have been nominated.

(2) If, in a district that is a county or entirely within 1 county, 2 or more candidates nominated by the same political party or by different political parties for the same office, or nonpartisan candidates for the same office, have the same or similar surnames, a candidate may file a written request with the board of county election commissioners for a clarifying designation. The request shall be filed not later than 3 days after the certification of the relevant candidates. Not later than 3 days after the filing of the request, the board of county election commissioners shall determine whether a similarity exists and whether a clarifying designation should be granted. In a district located in more than 1 county, the board of state canvassers shall make a determination whether to grant a clarifying designation upon the written request of a candidate who is certified by the secretary of state. The request shall be filed with the state board of canvassers not later than 3 days after the state board of canvassers completes the canvass of the primary election in compliance with section 581 and the certification of nominees in compliance with section 687. The board of state canvassers shall make its determination not later than 3 days after the request is filed.

(3) In each instance, the determining board shall immediately notify each candidate for the same office as the requester that a request for a clarifying designation has been made and of the date, time, and place of the hearing. The requester and each candidate for the same office shall be notified of the board's determination by first-class mail sent within 24 hours after the final date for the determination. A candidate who is dissatisfied with the determination of the board of county election commissioners may file an appeal in the circuit court of the county where the board is located. A candidate who is dissatisfied with the determination of the board of state canvassers may file an appeal in the Ingham county circuit court. The appeal shall be filed within 14 days after the final date for determination by the board. The court shall hear the matter de novo. Except as provided in subsection (4), in the case of the same surname or of a final determination by the board or by the court before the latest date that the board can arrange for the ballot printing of the existence of similarity, the board shall print the occupation, date of birth, or residence of each of the candidates having the same or similar surnames on the ballot or ballot labels or slips to be placed on the voting machine, when used, under their respective names. The request may not be made by a candidate of a political party whose candidate for secretary of state received less than 10% of the total vote cast in the state for all candidates for secretary of state in the most recent November election in which a secretary of state was elected. The term "occupation" includes a currently held political office, even though it is not the candidate's principal occupation, but does not include reference to a previous position or occupation.

(4) If there are 2 candidates with the same or similar surnames and 1 of the candidates is entitled to an incumbency designation by section 24 of article VI of the state constitution of 1963, no other designation shall be provided for the other candidate with the same or similar surname. If there are more than 2 candidates with the same or similar surname and 1 of the candidates is entitled to an incumbency designation by section 24 of article VI of the state constitution of 1963, a clarifying designation may be given to the other candidates with the same or similar surname. Except for an incumbency designation under section 24 of article VI of the state constitution of 1963, if 2 or more candidates with the same or similar surnames are related, the board shall only print the residence or date of birth of each of the candidates as a clarifying designation. As used in this subsection, "related" means that the candidates with the same or similar surnames are related within the third degree of consanguinity.

(5) The board of state canvassers shall issue guidelines to ensure fairness and uniformity in the granting of designations and may issue guidelines relating to what constitutes the same or similar surnames. The board of state canvassers and the boards of county election commissioners shall follow the guidelines.

(a) If the elector desires to vote a straight ticket, the elector may make a cross (X) or a check mark () in the circle under the name of that party at the head of the ballot. Nothing further need be done.

(b) If only 1 candidate is to be elected to an office and the elector desires to vote for a candidate not on the elector's party ticket, the elector should make a cross (X) or a check mark () in the circle under the name of the elector's party, and also make a cross (X) or a check mark () in the square before the name of the candidate for whom the elector desires to vote on the other ticket. In such case, it shall not be necessary to cross off the name of the candidate on the elector's party ticket. If the elector votes for more than 1 candidate for the same office where only 1 candidate is to be elected to the office, the ballot shall not be counted for either of the candidates and shall be as to those candidates considered null and void.

(c) If 2 or more candidates are to be elected to the same or like office, such as coroners, and the elector desires to vote for a candidate or candidates not on the elector's party ticket for the office, the elector should mark a cross (X) or a check mark () in the circle under the elector's party name, and mark a cross (X) or a check mark () in the square before the name or names of the candidate or candidates for whom the elector desires to vote on the other ticket or tickets, and also cross off an equal number of names of the candidates for the office on the elector's party ticket; but if the elector fails to cross off the names of an equal number of candidates for the office on the elector's party ticket, the elector shall be considered to have crossed off the name of each candidate for the office which is printed on the elector's party ticket opposite the name of the candidate on some other party ticket in front of which name the elector has made a cross (X) or a check mark ().

(d) If the elector wishes to vote for a candidate not on any ticket, the elector may write or place the name of that candidate on the elector's ballot opposite the name of the office and make a cross (X) or a check mark () in the circle under the party name.

(e) A ballot marked with a cross (X) or a check mark () in a circle under a party name shall be considered a vote for each of the candidates named in the party column whose name is not crossed off, except those candidates where a cross (X) or a check mark () is placed in the square before the name of some opposing candidate on another ticket, or where there is written or pasted on the party ticket a name which is not printed on any party ticket.

(f) If the name of any person who is not a candidate on any ticket is written or placed on the party ticket opposite the name of the office and there is a cross (X) or a check mark () in the circle under the party name, the name so written or placed shall be counted 1 vote for the person, whether the original name on the party ticket is erased or not, excepting cases where there is a cross (X) or a check mark () in the square before the name of some opposite candidate on some other party ticket.

(g) If a cross (X) or a check mark () is not placed in the circle under the party name, a cross (X) or a check mark () in the square before the name of any candidate shall be considered a vote for that candidate except in cases where the elector votes for more candidates for the same office than are to be elected.

(h) An elector shall indicate the elector's preference on any constitutional amendment or other submitted question by making a cross (X) or a check mark () in the square in front of the word "Yes" or in the square in front of the word "No" opposite or below the question on the proper ballots.

Sec. 759a. (1) An absent uniformed services voter or an overseas voter who is not registered, but possessed the qualifications of an elector under section 492, may apply for registration by using the federal postcard application. The department of state, bureau of elections, is responsible for disseminating information on the procedures for registering and voting to an absent uniformed services voter and an overseas voter.

(2) Upon the request of an absent uniformed services voter or an overseas voter, the clerk of a county, city, township, or village shall electronically transmit a blank voter registration application or blank absent voter ballot application to the voter. The clerk of a county, city, township, or village shall accept a completed voter registration application or completed absent voter ballot application electronically transmitted by an absent uniformed services voter or overseas voter. A voter registration application or absent voter ballot application submitted by an absent uniformed services voter or overseas voter shall contain the signature of the voter.

(3) A spouse or dependent of an overseas voter who is a citizen of the United States, is accompanying that overseas voter, and is not a qualified and registered elector anywhere else in the United States, may apply for an absent voter ballot even though the spouse or dependent is not a qualified elector of a city or township of this state.

(4) An absent uniformed services voter or an overseas voter, whether or not registered to vote, may apply for an absent voter ballot. Upon receipt of an application for an absent voter ballot under this section that complies with this act, a county, city, village, or township clerk shall forward to the applicant the absent voter ballots requested, the forms necessary for registration, and instructions for completing the forms. If the ballots are not yet available at the time of receipt of the application, the clerk shall immediately forward to the applicant the registration forms and instructions, and forward the ballots as soon as they are available. If a federal postcard application is filed, the clerk shall accept the federal postcard application as the registration application and shall not send any additional registration forms to the applicant. If the ballots and registration forms are received before the close of the polls on election day and if the registration complies with the requirements of this act, the absent voter ballots shall be delivered to the proper election board to be tabulated. If the registration does not comply with the requirements of this act, the clerk shall retain the absent voter ballots until the expiration of the time that the voted ballots must be kept and shall then destroy the ballots without opening the envelope. The clerk may retain registration forms completed under this section in a separate file. The address in this state shown on a registration form is the residence of the registrant.

(5) Not later than 45 days before an election, a county, city, township, or village clerk shall electronically transmit or mail as appropriate an absent voter ballot to each absent uniformed services voter or overseas voter who applied for an absent voter ballot 45 days or more before the election.

(6) Upon the request of an absent uniformed services voter or overseas voter, the clerk of a county, city, township, or village shall electronically transmit an absent voter ballot to the voter. The voter shall print the absent voter ballot and return the voted ballot by mail to the appropriate clerk.

(7) The secretary of state shall prescribe electronic absent voter ballot formats and electronic absent voter ballot transmission methods. Each county, city, township, or village clerk shall employ the prescribed electronic ballot formats to fulfill an absent voter ballot request received from an absent uniformed services voter or overseas voter who wishes to receive his or her absent voter ballot through an electronic transmission. The secretary of state shall establish procedures to implement the requirements in this section and for the processing of a marked absent voter ballot returned by an absent uniformed services voter or overseas voter who obtained his or her absent voter ballot through an electronic transmission.

(8) The secretary of state shall modify the printed statement provided under section 761(4) and the absent voter ballot instructions provided under section 764a as appropriate to accommodate the procedures developed for electronically transmitting an absent voter ballot to an absent uniformed services voter or overseas voter. A statement shall be included in the certificate signed by the absent voter who obtained his or her absent voter ballot through an electronic transmission that the secrecy of the absent voter ballot may be compromised during the duplication process. The absent voter ballot instructions provided to an absent uniformed services voter or overseas voter shall include the proper procedures for returning the absent voter ballot to the appropriate clerk.

(9) The size of a precinct shall not be determined by registration forms completed under this section.

(10) An absent uniformed services voter or an overseas voter who submits an absent voter ballot application is eligible to vote as an absent voter in any local or state election occurring in the calendar year in which the absent voter ballot application is received by the county, city, village, or township clerk, but not in an election for which the application is received by the clerk after 2 p.m. of the Saturday before the election. A county, city, or township clerk receiving an absent voter ballot application from an absent uniformed services voter or overseas voter shall transmit to a village clerk and the school district election coordinators, where applicable, the necessary information to enable the village clerk and school district election coordinators to forward an absent voter ballot for each applicable election in that calendar year to the absent voter. A village clerk receiving an absent voter ballot application from an absent uniformed services voter or overseas voter shall transmit to the township clerk and the school district election coordinators, where applicable, the necessary information to enable the city or township clerk and school district election coordinators to forward an absent voter ballot for each applicable election in that calendar year to the absent voter. If the local elections official rejects a voter registration application or absent voter ballot application submitted by an absent uniformed services voter or overseas voter, the election official shall notify the voter of the rejection.

(11) An electronic mail address provided by an absent uniformed services voter or overseas voter for the purposes of this section is confidential and exempt from disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

Sec. 759b. Any registered elector may apply for absent voter ballots at any time prior to 4 p.m. on election day if he shall have become physically disabled or shall be absent from the city or township because of sickness or death in the family which has occurred at a time which has made it impossible to apply for absent voter ballots by the statutory deadline. The application shall be called an emergency absent voter application.

Emergency absent voter applications may be made by letter or on a form provided by the clerk. The application shall set forth that the voter is qualified to vote in the election, stating the statutory reason for applying for an emergency absent voter ballot and that the reason for applying after the statutory deadline occurred at such a time to make it impossible to file an application for absent voter ballots by the statutory deadline.

Any person intentionally making a false statement in such application is guilty of a felony. Any person aiding or abetting any person to make a false statement on such application is guilty of a felony.

Upon receipt by the clerk of a valid application for an emergency absent voter ballot, the clerk may deliver the ballots to the applicant in person, through a deputy or an election assistant, or he may deliver them at his office to a person named by the applicant in the application. The voter may return the ballots to the clerk in the sealed envelope provided therefor in any manner he sees fit. 168.761 Absent voter ballots; mailing or delivering to applicant; order of issuance; numbering; return envelope; form; statement; false statement as misdemeanor or felony.

Sec. 761. (1) If the clerk of a city, township, or village receives an application for an absent voter ballot from a person registered to vote in that city, township, or village and if the signature on the application agrees with the signature for the person contained in the qualified voter file or on the registration card as required in subsection (2), the clerk immediately upon receipt of the application or, if the application is received before the printing of the absent voter ballots, as soon as the ballots are received by the clerk, shall forward by mail, postage prepaid, or shall deliver personally 1 of the ballots or set of ballots if there is more than 1 kind of ballot to be voted to the applicant. Absent voter ballots may be delivered to an applicant in person at the office of the clerk.

(2) The qualified voter file shall be used to determine the genuineness of a signature on an application for an absent voter ballot. Signature comparisons shall be made with the digitized signature in the qualified voter file. If the qualified voter file does not contain a digitized signature of an elector, or is not accessible to the clerk, the city or township clerk shall compare the signature appearing on the application for an absent voter ballot to the signature contained on the master card.

(3) Notwithstanding section 759, providing that no absent voter applications shall be received by the clerk after 2 p.m. on the Saturday before the election, a person qualified to vote as an absent voter may apply in person at the clerk's office before 4 p.m. on a day preceding the election except Sunday or a legal holiday to vote as an absent voter. The applicant shall receive his or her absent voter ballot and vote the ballot in the clerk's office. All other absent voter ballots, except ballots delivered pursuant to an emergency absent voter ballot application under section 759b, shall be mailed or delivered to the registration address of the applicant unless the application requests delivery to an address outside the city, village, or township or to a hospital or similar institution, in which case the absent voter ballots shall be mailed or delivered to the address given in the application. However, a clerk may mail or deliver an absent voter ballot, upon request of the absent voter, to a post office box if the post office box is where the absent voter normally receives personal mail and the absent voter does not receive mail at his or her registration address.

(4) Absent voter ballots shall be issued in the same order in which applications are received by the clerk of a city, township, or village, as nearly as may be, and each ballot issued shall bear the lowest number of each kind available for this purpose. However, this provision does not prohibit a clerk from immediately issuing an absent voter ballot to an absent voter who applies in person in the clerk's office for absent voter ballots. The clerk shall enclose with the ballot or ballots a return envelope properly addressed to the clerk and bearing upon the back of the envelope a printed statement in substantially the following form:

The clerk is required to provide assistance if you are unable to return your absent voter ballot as specified in (a), (b), or (c) above, if it is before 5 p.m. on the Friday immediately preceding the election, and if you are asking the clerk to pickup the absent voter ballot within the jurisdictional limits of the city, township, or village in which you are registered. Your absent voter ballot will then be picked up by the clerk or an election assistant sent by the clerk. All persons authorized to pick up absent voter ballots are required to carry credentials issued by the clerk. If using this absent voter ballot return method, do not give your ballot to anyone until you have checked their credentials.

Sec. 778. The clerk of a city, village, or township in which voting machines are used shall have complete control of the machines. However, if the machines are owned by the county, this control is vested in the county clerk. The clerk and his or her authorized assistants are, for the purpose of this chapter, officers of election and may be paid for the time spent in the discharge of their duties, in the same manner as other

election officers are paid. However, this section does not apply to a city where the clerk or his or her authorized assistants receive compensation that is fixed by the legislative body. In cities where there are more than 20 voting machines, more than 1 authorized assistant may be appointed. The clerk or his or her authorized assistants shall cause the machines to be properly labeled, put in order, set, and arranged. In preparing a voting machine for an election, the clerk or his or her authorized assistants shall arrange the machine and the ballots so that it will meet the requirements for voting and counting at the election, and thoroughly test and seal or lock the machine. When a machine has been prepared for the election, the election commissioners, or their authorized assistants, shall inspect the machine to determine whether it is properly prepared. An authorized assistant shall not be the same person who prepared and set the voting machine. The election commissioners or their authorized assistant shall prepare and file with the commissioners a written certificate certifying to the correct adjustment of the machine, the number of the machine, whether or not all the candidates and question counters and the public counter are set at zero, the number registered on the protective counter, if one is provided, and the number of the metal seal with which the machine is sealed. In elections in which state and county officers are to be voted for, an additional certificate shall be filed with the county clerk. Each voting machine shall be furnished with a light sufficient to enable voters while in the booth or other enclosure to read the ballot labels, and suitable for use by the election officers in examining the counters of the machine. The clerk or his or her authorized assistants shall cause the voting machines to be delivered at the polling places in which they are to be used at least 1 hour before the time set for opening the polls. Police protection shall be furnished by the local authorities whenever the officers charged with the duty of preparing the machines consider protection necessary to prevent possible injury to a machine, but the machines shall at all times be under the supervision of an officer, except during the hours prescribed by law for voting on election day.

The inspectors of election shall then and there have the voting machine, ballots and stationery required to be delivered to them for such election, and the registry of the electors required to be made and kept therefor. If not previously done, they shall insert in their proper place on the voting machine the ballot labels containing the names of the offices to be filled at such election, the names of the candidates nominated therefor and the question, if any, to be voted upon. The keys of the voting machines shall be delivered to the election officers or chairman of the election board not more than 24 hours nor less than 1/2 hour before the time set for opening the polls, in a sealed envelope, on which shall be written or printed the number and location of the voting machine, the number on the seal and, if provided with a protective counter, the number registered on such counter as reported by the clerk or his authorized assistants: Provided, That where key rings to which are attached the keys to the voting machines, with tags bearing the numbers of the machines and of the wards and/or precincts, are delivered by the local law enforcement agency, the number on the seal and of the protective counter, if any, shall be recorded in the statement of returns. Before opening the machine, at least 2 of the officers present shall examine the number of the seal on the machine, also the number registered on the

protective counter, if one is provided, and shall see if they are the same as recorded on the envelope containing the keys or on the statement of returns. If found not to agree, the machine must not be opened until the clerk, or the assistant duly appointed and authorized to act for such clerk, shall have been notified and shall have presented himself at the polling place for the purpose of re-examining such machine and shall certify that it is properly arranged. If the numbers on the seal and the protective counter, if one is provided, are found to agree with the numbers on the envelope or statement of returns, the inspectors shall proceed to open the doors concealing the counters. Before the polls are opened for the election, each inspector shall carefully examine every candidate and question counter and see that it registers zero, and the same shall be subject to the inspection of the official challengers who may be present. If any counter for a candidate or question is found not to register zero, the inspectors of election shall immediately notify the county, city or township clerk, under whose direction such machine has been prepared for election, and said clerk or the assistant appointed by him shall adjust the counter at zero, re-examine the machine and certify to its proper adjustment for use in the election. During the examination of the voting machine by the inspectors of election, the machine shall remain locked against voting until the polls are formally opened, and shall not be operated except by the electors in voting, or by the inspectors in recording absent voters' ballots.

168.782b Voting machines; use of emergency ballots when no reserve machine available.

Sec. 782b. If there is no reserve machine available, emergency ballots may also be provided by the board of election commissioners of the county, having suitable blank spaces to permit the voter to vote a straight party ticket, or if he desires to split his party ticket, to indicate the party ticket the majority of whose candidates he favors, together with the names of such other candidates for whom he desires to vote. The ballots shall be used only in emergency and upon special permission of the board or official whose duty it is

It shall not be necessary to provide emergency ballots for each election unless same shall have been used, destroyed or lost, in which case similar ballots shall again be provided. If at any time during the election, the voting machine is disabled and cannot be repaired and no other voting machine can be had to supply its place, an emergency shall be declared to exist and the voting thereafter at that election in that voting precinct shall be by ballot, in the manner provided in this section. The board or official having the custody of the emergency ballots, when so directed, shall supply a sufficient number of such ballots to the election board for use by the voters. One of the ballots shall be delivered by the election board to each voter who may thereafter appear to vote and shall be voted and counted subject to the provisions relative to voting by ballot at general elections, except as herein otherwise provided. The ballots shall be numbered consecutively from 1 up, which number and identification shall be printed upon a perforated stub as in the case where only regular ballots are used at elections.

Sec. 791. As soon as the polls of election are officially closed and the last voter has voted, the inspectors of election shall seal the operating lever of the machine, if any, against voting, with the numbered metal seal provided for that purpose and open the counter compartment in the presence of the challengers and all other persons lawfully within the polling place, giving full view of all the counter numbers. The chairman of the board shall then under the scrutiny of another member, in the order of the offices as their titles appear on the machine, read and announce in a distinct voice the candidate's name or the designating number and letter, if any, of each counter for each candidate's name and the number of votes shown on said counter, and shall then in like manner read and announce the vote on each constitutional amendment, proposition or other question. He shall also announce the vote as recorded for each office on the irregular ballots, if any. The candidate counters shall be read consecutively along the row or column and the votes as registered and announced shall be entered in ink by members of the board, directly into the inspectors' statement of returns, in the space which has the same candidate's name or designating number and letter, if any. After recording on the inspectors' statement of returns, the vote as shown by the counters, the figures shall be verified by being called off in the same manner from the counters of the machine by another inspector. At least 2 copies of the statement of returns shall be made simultaneously.

When absent voters' ballots have been returned to the city clerk and delivered to the precinct board of election inspectors such election inspectors shall determine the legality of such ballots as prescribed in this act, and shall count and tally the votes on such ballots on 2 separate tally sheets which shall be provided by the county clerk. The canvass will be performed in the same manner as is provided for paper ballot precincts. The totals from this canvass shall be entered separately on the statement of returns and also included in the total precinct vote as shown on the statement.

The counter compartment of the voting machine shall remain open until the statement of returns and other records, if any, have been fully completed and signed by the election board. During such time any challenger of any party, duly accredited as provided by the election law, who may desire to be present shall be admitted to the polling place. Immediately after the canvass has been completed, the results, stating the total number of votes received by each person voted for in said precinct for any office and the number of votes for and the number of votes against any proposed constitutional amendment or other submitted proposition, shall be made available to interested persons who may be present. Ample opportunity shall be given to any person lawfully present to compare the results with the counterdials of the machine and any necessary corrections shall then and there be made by the election board, after which the doors of the voting machine shall be closed and locked.

When absent voters' ballots have been cast in the voting precinct, the machine shall not be closed and locked until such ballots, from which the perforated numbered corners have been detached, have been sealed in an envelope provided for that purpose or wrapped and tied in the manner provided at elections where voting machines are not used, and placed inside the machine, after which the doors shall be securely closed and locked. On the envelope or wrapper shall be printed a certificate which shall be signed by all members of the election board certifying that the absent voters' ballots contained therein have been properly recorded on the absent voters' tally sheet and the statement of returns.

Such machines shall remain sealed or locked and shall not be operated subsequent to any primary or election until the day following the last day for filing petitions for recount of any votes cast on such machines, after which period the seals may be broken and machines released, unless a recount petition has been filed and the recount not completed, or the release of the machine has been stayed by a court order. In any case, the seals shall be broken and machines released not less than 20 days preceding an election at which such machines are to be used. In city, village and township elections, the legislative body may, if not prohibited by the charter of such city, village or township, provide for a different period during which the machine shall remain sealed or locked.

At the conclusion of the precinct canvass, one sheet showing the reading upon each of the respective counters after the last vote is recorded upon each of such machines used in the precinct, shall be included with the returns to the county board of canvassers, and one sheet from each of such machines shall be included with the returns to the local clerk. One of such sheets from each machine, and one sheet showing the counter reading as appearing before the opening of the polls, shall be locked in the machine from which the same was taken. Such sheets shall be initialed by each of the members of the precinct board of election inspectors before completing the returns.

168.792 Voting machines; discrepancy in return; investigation, re-canvass procedure, petition.

Sec. 792. Whenever it shall appear that there is a discrepancy in the returns of any election district, the board of canvassers of the county, if it be a general election at which county or state officers are elected, or the board of canvassers of the city, village or township, if it be a city, village or township election at which city, village or township officers only are elected, or the authorized representatives of such board of canvassers, shall make a record of the number of the seal, if any, the number on the protective counter, if one is provided, and shall open the counter compartment of said machine, and without unlocking the machine against voting, shall re-canvass the vote cast thereon. Before making such re-canvass, the said board of canvassers shall give sufficient notice in writing to the clerk of the time and place where said re-canvass is to be made. If upon such re-canvass it shall be found that the original canvass of the returns has been correctly made from the machine, and that the discrepancy still remains unaccounted for, the clerk or authorized assistant, in the presence of the inspectors of election and the said board of canvassers, shall unlock the voting and counting mechanism of said machine and shall proceed to thoroughly examine and test the machine to determine and reveal the true cause or causes, if any, of the discrepancy in the return from said machine. Before testing the machine, the counters in the party row or column in which the discrepancy is alleged to have occurred shall be set at zero after which each of such counters shall be operated at least 100 times. After the completion of said examination, the clerk or authorized assistant shall then and there prepare a statement in writing giving the result thereof, and said statement shall be witnessed by the persons present and shall be filed with the board of canvassers. Any candidate voted for at any election who conceives himself aggrieved on account of any fraud, error or mistake in the canvass of the vote by the inspectors or in the returns made by the inspectors of election, may file a written petition for a recount with the board of canvassers, as provided in cases where voting machines are not used.

168.792a Absent voter counting boards.

Sec. 792a. (1) Except as otherwise provided in this subsection, the absent voter ballots in a city, township, or village that uses voting machines shall be counted by absent voter counting boards. The board of election commissioners of a city, township, or village that has 2 precincts or less or of a city that has 500,000 or more in population may decide that the absent voter ballots shall be counted in the manner provided in section 791. In a city, township, or village that does not use voting machines, the absent voter ballots may be counted by absent voter counting boards or in the same manner as is otherwise provided for precincts in which voting is not done on voting machines.

(2) The board of election commissioners shall establish the absent voter counting boards. The board of election commissioners shall determine the number of absent voter counting boards to be established and shall appoint the election inspectors to those absent voter counting boards 10 days or more before the election at which they are to be used. Sections 673a and 674 apply to the appointment of election inspectors to absent voter counting boards under this section. The board of election commissioners shall determine the number of ballots that may be expeditiously counted by an absent voter counting board in a reasonable period of time, taking into consideration the size and complexity of the ballot to be counted pursuant to the guidelines of the

secretary of state. Combined ballots shall be regarded as the number of ballots as there are sections to the ballot.

(3) If more than 1 absent voter counting board is to be used, the city, township, or village clerk shall determine the number of voting machines or the number of ballot boxes and the number of election inspectors to be used in each of the absent voter counting boards and to which absent voter counting board the absent voter ballots for each precinct shall be assigned for counting. The clerk shall make the determination under this subsection 2 days or more before the election and shall not assign an absent voter counting board more ballots than the maximum number authorized by the board of election commissioners under subsection (2). The clerk is not required to use all of the absent voter counting boards authorized by the board of election commissioners under subsection (2).

(4) In a city, township, or village that uses absent voter counting boards under this section, absent voter ballots shall be counted in the manner provided in this section and absent voter ballots shall not be delivered to the polling places. The board of election commissioners shall provide a place for each absent voter counting board to count the absent voter ballots. Section 662 applies to the designation and prescribing of the absent voter counting place or places in which the absent voter counting board performs its duties under this section. The places shall be designated as absent voter counting places. Except as otherwise provided in this section, laws relating to paper ballot precincts, including laws relating to the appointment of election inspectors, apply to absent voter counting places. If a counting place uses voting machines, the provisions of this section relating to placing of absent voter ballots on voting machines apply. More than 1 absent voter counting board may be located in 1 building.

(5) The clerk of a city, township, or village that uses absent voter counting boards shall supply each absent voter counting board with supplies necessary to carry out their duties under this act. The supplies shall be furnished to the city, township, or village clerk in the same manner and by the same persons or agencies as for other precincts.

(6) Absent voter ballots received by the clerk before election day shall be delivered to the absent voter counting board by the clerk at the time the election inspectors of the absent voter counting boards report for duty, which time shall be established by the board of election commissioners. Absent voter ballots received by the clerk on election day shall be delivered to the absent voter counting boards before the time set for the closing of the polls. Absent voter ballots shall be delivered to the absent voter counting boards in the sealed absent voter ballot return envelopes in which they were returned to the clerk. Written or stamped on each of the return envelopes shall be the time and the date that the envelope was received by the clerk and a statement by the clerk that the signatures of the absent voters on the envelopes have been checked and found to agree with the signatures of the voters on the registration cards or the digitized signatures of voters contained in the qualified voter file as provided under section 766. If a signature on the registration card or a digitized signature contained in the qualified voter file and on the absent voter ballot return envelope does not agree as provided under section 766, if the absent voter failed to sign the envelope, or if the statement of the absent voter is not properly executed, the clerk shall mark the envelope "rejected" and the reason for the rejection and shall place his or her name under the notation. An envelope marked "rejected" shall not be delivered to the absent voter counting board but shall be preserved by the clerk until other ballots are destroyed in the manner provided in this act. The clerk shall also comply with section 765(5).

(7) At the time of issuing or mailing absent voter ballots to qualified applicants, the clerk of a city, township, or village that uses absent voter counting boards shall mark the letters "A.V." and the date of election on the registration card of the applicant in the precinct registration file.

(8) This chapter does not prohibit an absent voter from voting in person within the voter's precinct at an election, notwithstanding that the voter may have applied for an absent voter ballot and the ballot may have been mailed or otherwise delivered to the voter. The voter, the election inspectors, and other election officials shall proceed in the manner prescribed in section 769. The clerk shall preserve the canceled ballots for 2 years.

(9) The absent voter counting boards shall process the ballots and returns in as nearly as possible the same manner as ballots are processed in paper ballot precincts. The poll book may be combined with the absent voter list or record required by section 760, and the applications for absent voter ballots may be used as the poll list. The processing and tallying of absent voter ballots may commence at 7 a.m. on the day of the election.

(10) An election inspector, challenger, or any other person in attendance at an absent voter counting place at any time after the processing of ballots has begun shall take and sign the following oath that may be administered by the chairperson or a member of the absent voter counting board:

"I (name of person taking oath) do solemnly swear (or affirm) that I shall not communicate in any way any information relative to the processing or tallying of votes that may come to me while in this counting place

until after the polls are closed."

(11) The oaths administered under subsection (10) shall be placed in an envelope provided for the purpose and sealed with the red state seal. Following the election the oaths shall be delivered to the city, township, or village clerk. Except as otherwise provided in subsection (16), a person in attendance at the absent voter counting place shall not leave the counting place after the tallying has begun until the polls close. A person who causes the polls to be closed or who discloses an election result or in any manner characterizes how any ballot being counted has been voted in a voting precinct before the time the polls can be legally closed on election day is guilty of a felony.

(12) At the time the board of election commissioners provide for the use of absent voter counting boards, the board of election commissioners may provide that the absent voter counting boards shall record the votes contained on absent voter ballots on voting machines. In that case, the recording of ballots shall be done by the chairperson of the absent voter counting board or another member designated by the chairperson. The act of casting the votes shall be performed in the presence of and under the careful observation and full view of all members of the absent voter counting board, party challengers, and any other persons lawfully present at the absent voter counting place. The vote as indicated by the voting pointers shall not be recorded until each member of the absent voter counting board is satisfied that the arrangement of the voting pointers fully carries out the intent of the absent voter as shown by the cross marks or check marks on the absent voter ballot. A certificate that the requirements of this subsection were met shall be made on the election inspectors' statement of returns.

(13) As soon as absent voter ballots have been cast on a voting machine pursuant to subsection (12), but not before 8 p.m., the election inspectors shall seal the operating lever of the machine against voting and shall then proceed to determine and record the votes cast in the manner provided in this act.

(14) Voted absent voter ballots shall be placed in a ballot box and the ballot bag and ballot box shall be sealed in the manner provided by this act for paper ballot precincts. The seal numbers shall be recorded on the statement sheet and in the poll book.

(15) In a city, township, or village where challenged voters are required to vote on absent voter ballots, each challenged voter ballot and application for ballot, after having been voted and properly identified, shall be placed by the voter in an absent voter ballot return envelope. The applicable information required on the back of the envelope shall be completed by the board of election inspectors. The envelope shall be signed by the challenged voter and by the chairperson of the precinct board of election inspectors. The word "challenged" shall be written across the front of the envelope. The envelope and application for ballot shall be sealed and delivered to the absent voter counting place by the clerk of the city, township, or village. Immediately after the closing of the polls, the chairperson of the precinct board of election inspectors shall notify the clerk of the city, township, or village of remaining challenged voter ballots to be delivered to the absent voter counting place. In a city, township, or village that uses voting machines where absent voter counting boards are not used, challenged ballots shall be counted and tallied in the precincts, in the same manner that absent voter ballots are tallied and counted as provided in section 791.

(16) Subject to this subsection, a local election official who has established an absent voter counting board, the deputy or employee of that local election official, or an employee of the state bureau of elections may enter and leave an absent voter counting board after the tally has begun but before the polls close. A person described in this subsection may enter an absent voter counting board only for the purpose of responding to an inquiry from an election inspector or a challenger or to provide instructions on the operation of the counting board. Before entering an absent voter counting board, a person described in this subsection shall take and sign the oath prescribed in subsection (10). The chairperson of the absent voter counting board shall record in the poll book the name of a person described in this subsection who enters the absent voter counting board. A person described in this subsection who enters an absent voter counting board and who discloses an election result or in any manner characterizes how any ballot being counted has been voted in a precinct before the time the polls can be legally closed on election day is guilty of a felony. As used in this subsection, "local election official" means a county, city, township, or village clerk, the secretary of a school board, or an employee of a school district designated to conduct a school election.

(17) The secretary of state shall develop instructions consistent with this act for the conduct of absent voter counting boards. The secretary of state shall distribute the instructions developed under this subsection to city and township clerks 40 days or more before a general election in which absent voter counting boards will be used. A city or township clerk shall make the instructions developed under this subsection available to the public and shall distribute the instructions to each challenger in attendance at an absent voter counting board. The instructions developed under this subsection are binding upon the operation of an absent voter counting board used in an election conducted by a county, city, township, village, school district, or any other jurisdiction empowered to conduct an election under this act.

168.795 Electronic voting system; requirements; method for rendering electronic tabulating equipment inoperable; equipping each polling place with accessible voting device.

Sec. 795. (1) An electronic voting system acquired or used under sections 794 to 799a shall meet all of the following requirements:

(a) Provide for voting in secrecy, except in the case of voters who receive assistance as provided by this act.

(b) Permit each elector to vote at an election for all persons and offices for whom and for which the elector is lawfully entitled to vote; to vote for as many persons for an office as the elector is entitled to vote for; and to vote for or against any question upon which the elector is entitled to vote. Except as otherwise provided in this subdivision, the electronic tabulating equipment shall reject all choices recorded on the elector's ballot for an office or a question if the number of choices exceeds the number that the elector is entitled to vote for on that office or question. Electronic tabulating equipment that can detect that the choices recorded on an elector's ballot for an office or a question exceeds the number that the elector is entitled to vote for on that office or question shall be located at each polling place and programmed to reject a ballot containing that type of an error. If a choice on a ballot is rejected as provided in this subdivision, an elector shall be given the opportunity to have that ballot considered a spoiled ballot and to vote another ballot.

(c) Permit an elector, at a presidential election, by a single selection to vote for the candidates of a party for president, vice-president, and presidential electors.

(d) Permit an elector in a primary election to vote for the candidates in the party primary of the elector's choice. Except as otherwise provided in this subdivision, the electronic tabulating equipment shall reject each ballot on which votes are cast for candidates of more than 1 political party. Electronic tabulating equipment that can detect that the elector has voted for candidates of more than 1 political party shall be located at each polling place and programmed to reject a ballot containing that type of an error. If a choice on a ballot is rejected as provided in this subdivision, an elector shall be given the opportunity to have that ballot considered a spoiled ballot and to vote another ballot.

(e) Prevent an elector from voting for the same person more than once for the same office.

(f) Reject a ballot on which no valid vote is cast. Electronic tabulating equipment shall be programmed to reject a ballot on which no valid vote is cast.

(g) Be suitably designed for the purpose used; be durably constructed; and be designed to provide for safety, accuracy, and efficiency.

(h) Be designed to accommodate the needs of an elderly voter or a person with 1 or more disabilities.

(i) Record correctly and count accurately each vote properly cast.

(j) Provide an audit trail.

(k) Provide an acceptable method for an elector to vote for a person whose name does not appear on the ballot.

(l) Allow for accumulation of vote totals from the precincts in the jurisdiction. The accumulation software must meet specifications prescribed by the secretary of state and must be certified by the secretary of state as meeting these specifications.

(m) Be compatible with or include at least 1 voting device that is accessible for an individual with disabilities to vote in a manner that provides the same opportunity for access and participation, including secrecy and independence, as provided for other voters. The voting device shall include nonvisual accessibility for the blind and visually impaired.

(2) Electronic tabulating equipment that counts votes at the precinct before the close of the polls shall provide a method for rendering the equipment inoperable if vote totals are revealed before the close of the polls. Electronic tabulating equipment that tabulates ballots, including absentee ballots, at a central location shall be programmed to reject a ballot if the choices recorded on an elector's ballot for an office or a question exceed the number that the elector is entitled to vote for on that office or question, if no valid choices are recorded on an elector's ballot, or if, in a primary election, votes are recorded for candidates of more than 1 political party.

(3) Beginning January 1, 2006, each jurisdiction in this state conducting an election shall equip each polling place with at least 1 accessible voting device as required under subsection (1)(m).

168.795a Electronic voting system; approval by board of state canvassers; conditions; approval of improvement or change; inapplicability of subsection (1); intent to purchase statement; instruction in operation and use; disapproval.

Sec. 795a. (1) An electronic voting system shall not be used in an election unless it is approved by the board of state canvassers as meeting the requirements of sections 794 and 795 and instructions regarding recounts of ballots cast on that electronic voting system that have been issued by the secretary of state, unless section 797c has been complied with, and unless it meets 1 of the following conditions:

(a) Is certified by an independent testing authority accredited by the national association of state election directors and by the board of state canvassers.

(b) In the absence of an accredited independent testing authority, is certified by the manufacturer of the voting system as meeting or exceeding the performance and test standards referenced in subdivision (a) in a manner prescribed by the board of state canvassers.

(2) The vendor or representative seeking approval of an electronic voting system shall do all of the following:

(a) Deposit with the secretary of state a nonrefundable application fee of \$1,500.00 for a new voting system and a fee of \$500.00 for an upgrade to any existing system.

(b) File with the secretary of state a list of all states in which the voting system has been approved for use. This list shall state how long the system has been used in the state and shall disclose any reports compiled by any state or local government concerning the performance of the system. The vendor shall remain responsible for filing this information on an ongoing basis.

(c) File with the secretary of state copies of all standard contracts and maintenance agreements used in connection with the sale of the voting system. All changes to standard contracts and maintenance agreements shall be filed with the secretary of state.

(d) Pay the cost for any field test required by the board of state canvassers.

(e) State the number of voters each component of the voting system can process per hour under each of the following circumstances:

(i) An election in which there are 10 or fewer items to be voted on the ballot by each voter.

(ii) An election in which the ballot consists of the number of items typically voted on at a presidential general election in this state.

(3) The board of state canvassers shall conduct a field test of all new voting systems as part of the certification process. The field test shall involve Michigan electors and election officials in simulated election day conditions. The test shall be designed to gauge voter reaction to the system, problems that voters have with the system, and the number of voting stations required for the efficient operation of an election based upon the vendor's statement provided under subsection (2)(e).

(4) The board of state canvassers shall approve an electronic voting system for use in this state only if it meets the conditions of subsection (1) except that in an emergency situation that threatens the ability of a county, city, or township to conduct a scheduled election, the board of state canvassers may approve a

correction of software or firmware after testing the software or firmware performance.

(5) If an electronic voting system is approved for use before January 1, 1997 by the board of state canvassers, it may be used in an election. However, if the electronic voting system has its software or firmware improved or changed, the system shall comply with the requirements of subsection (1).

(6) After an electronic voting system is approved, an improvement or change in the electronic voting system shall be submitted to the board of state canvassers for approval pursuant to this section. This subsection does not apply to the technical capability of a general purpose computer, reader, or printer to electronically record and count votes.

(7) A county, city, township, village, or school district shall file “an intent to purchase statement” with the secretary of state 30 days before any purchase agreement is made to purchase a new voting system. The secretary of state shall provide all information concerning the operation of the voting system in Michigan or any other state to the local unit of government within 25 days after receiving the “intent to purchase statement”.

(8) The secretary of state shall instruct local election officials regarding the operation and use of an approved electronic voting system in order to carry out the purposes of sections 794 to 799a and the rules promulgated pursuant to sections 794 to 799a.

(9) If the board of state canvassers determines that an electronic voting system that was approved under subsection (1) no longer meets the requirements described in that subsection, the board of state canvassers may disapprove that voting system. An electronic voting system that has been disapproved by the board of state canvassers under this subsection shall not be used in an election, unless it is reapproved by the board of state canvassers under subsection (1).

168.797a Instruction in method of voting on electronic voting system; use of ballot processed through electronic tabulating equipment; procedure; detached stub; spoiled ballot; processing of challenged voter ballot; removal of ballot.

Sec. 797a. (1) Before entering the voting station, each elector shall be offered instruction in the proper method of voting on the electronic voting system. If the elector needs additional instruction after entering the voting station, 2 election inspectors from different political parties may, if necessary, enter the voting station and provide the additional instructions.

(2) If the electronic voting system provides for the use of a ballot that is processed through electronic tabulating equipment after the elector votes, the elector shall transport the ballot to the ballot box, or other approved ballot container, without exposing any votes. An election inspector shall ascertain, by comparing the number appearing on the ballot stub with the number recorded on the poll list, that the ballot delivered by the voter is the same ballot that was issued to the elector. If the numbers do not agree, the ballot shall be marked as “rejected”, and the elector shall not be allowed to vote. If the numbers agree, an election inspector shall remove and discard the stub. Except as otherwise provided in this subsection, the election inspector shall deposit the ballot in the ballot box or other approved ballot container. If electronic tabulating equipment that deposits the voted ballot into the ballot box or other approved ballot container is used at the precinct, the election inspector shall return the ballot to the elector, and the elector shall then deposit the ballot into the electronic tabulating equipment. The electronic tabulating equipment shall be arranged so that the secrecy of the ballot is not violated. If required for the proper operation of the electronic tabulating equipment, 2 election inspectors from different political parties may periodically open the equipment to rearrange voted ballots and may transfer voted ballots to another approved ballot container.

(3) A ballot from which the stub is detached shall not be accepted by the election inspector in charge of the ballot box or other approved ballot container. An elector who spoils his or her ballot may return it and secure another ballot. The word “spoiled” shall be written across the face of the ballot, and the ballot shall be marked and secured for later return.

(4) A ballot of a challenged voter that has the names of candidates and questions printed directly on the voted ballot shall be processed in the manner prescribed for challenging a vote cast by paper ballot. A challenge to a voter voting on an electronic voting system that does not use an individual hard copy ballot shall be processed in the manner prescribed for challenging a vote cast on a voting machine.

(5) Except as otherwise provided in this act, an election inspector shall not allow any portion of a ballot, including a ballot stub, to be removed by any person other than an election inspector from the polling place.

Sec. 798. (1) Before beginning the count of ballots, the board of election commissioners shall test the electronic tabulating equipment to determine if the electronic tabulating equipment will accurately count the votes cast for all offices and on all questions. Public notice of the time and place of the test shall be given at least 48 hours before the test by publication in a newspaper published in the county, city, village, township, or school district where the electronic tabulating equipment is used. If a newspaper is not published in that county, city, village, township, or school district, the notice shall be given by publication in a newspaper of general circulation in that county, city, village, township, or school district. If an error is detected, the board of election commissioners shall determine the cause of the error and correct the error. The board of election commissioners shall make an errorless count and shall certify the errorless count before the count is started. The electronic tabulating equipment that can be used for a purpose other than examining and counting votes shall pass the same test at the conclusion of the count before the election returns are approved as official.

(2) On completion of the test and count, the programs, test materials, and ballots arranged by precincts shall be sealed and retained as provided by this subsection and rules promulgated by the secretary of state pursuant to Act No. 306 of the Public Acts of 1969. If the electronic tabulating equipment that is tested and certified to by the board of election commissioners will be used to count votes at the precinct, a memory device containing the tested programs, if any, shall be sealed into the electronic tabulating equipment. Upon completion and certification of the count of votes, the memory device containing the program and the vote totals shall remain sealed in the electronic tabulating equipment or, if removed from the electronic tabulating equipment, shall remain sealed in a container approved by the secretary of state, delivered to the clerk, and retained in the manner provided for other voted ballots.

Sec. 799a. (1) This section governs the recounting of a ballot on which a voter has made a selection by means of a punch, mark, or stamp.

(2) If the electronic voting system requires that the elector cast a vote by punching out a hole in a ballot, the vote shall not be considered valid unless the portion of the ballot designated as a voting position is completely removed or is hanging by 1 or 2 corners or the equivalent.

168.803 Counting and recounting of votes; intent of voter; stray marks; instructions issued by secretary of state.

Sec. 803. (1) Except as otherwise provided in this act, the following rules govern the counting and recounting of votes:

(a) If it is clearly evident from an examination of a ballot that the ballot has been mutilated for the purpose of distinguishing it or that there has been placed on the ballot some mark, printing, or writing for the purpose of distinguishing it, then that ballot is void and shall not be counted.

(b) A cross, the intersection of which is within or on the line of the proper circle or square, or a check mark, the angle of which is within a circle or square, is valid. Crosses or check marks otherwise located on the ballot are void.

(c) Marks other than crosses or check marks used to designate the intention of the voter shall not be counted.

(d) A cross is valid even though 1 or both lines of the cross are duplicated, if the lines intersect within or on the line of the square or circle.

(e) Two lines meeting within or on the line of the square or circle, although not crossing each other, are valid if it is apparent that the voter intended to make a cross.

(f) A failure to properly mark a ballot as to 1 or more candidates does not alone invalidate the entire ballot if the ballot has been properly marked as to other candidates, unless the improper marking is determined to be a distinguishing mark as described in this subsection.

(g) Erasures and corrections on a ballot made by the elector in a manner frequently used for this purpose shall not be considered distinguishing marks or mutilations.

(h) Any ballot or part of a ballot from which it is impossible to determine the elector's choice of candidate is void as to the candidate or candidates affected by that determination.

(i) Any votes cast for a deceased candidate are void and shall not be counted, except that votes cast for a candidate for governor who has died, and for whom a replacement has not been made, shall be counted for the candidate for lieutenant governor of that party.

(j) All ballots cast that are not counted shall be marked by the inspector "not counted", kept separate from the others by being tied or held in 1 package, and placed in the ballot box with the counted ballots.

(k) A vote shall not be counted for any candidate unless a cross or a check mark has been placed by the voter in the circle at the head of the party ticket, if any, on which the name of the candidate has been printed, written, or placed or unless a cross or a check mark has been placed by the voter in the square before the space in which the name of the candidate has been printed, written, or placed.

(2) If an electronic voting system requires that the elector place a mark in a predefined area on the ballot in order to cast a vote, the vote shall not be considered valid unless there is a mark within the predefined area. A stray mark made within a predefined area is not a valid vote. In determining whether a mark within a predefined area is a stray mark, the board of canvassers or election official shall compare the mark with other marks appearing on the ballot. The secretary of state shall issue instructions, subject to the approval of the board of state canvassers, relevant to stray marks to ensure the fairness and uniformity of determinations made under this subsection. A secretary of state's instruction relevant to stray marks shall not be applied to a ballot unless the secretary of state issued the instruction not less than 63 days before the date of the election.

Sec. 869. Upon the filing of a petition for recount, and the giving of notice, if notice is required to be given, the board of county canvassers shall be summoned by the clerk of the board and here make an investigation of the facts set forth in the petition. Should the recount involve a county or district office or proposition, the recount shall not be commenced until the board shall determine by communicating with the secretary of state that no petition has been filed requesting a recount by the board of state canvassers of ballots cast in the same district. In case said board shall be advised by the secretary of state that a petition has been filed with him praying for a recount by the board of state canvassers of the ballots cast in the same county or district, then no action shall be taken upon the recount until the county board shall receive instructions from the board of state canvassers. Nothing herein contained shall act to delay any recount of the ballots cast at any city, ward, township or village election if the ballots cast at such election are not sealed in the same ballot boxes with the state and county offices. With respect to any recount of ballots cast in any city, ward, township, village, school or district election, the board of county canvassers shall charge the appropriate local unit the actual and necessary expenses of conducting the recount, and the local unit shall pay such charges to the county treasurer.

168.871 Recount; counting of paper ballots; use of electronic voting system; use of voting machines; recount of absent voter ballots; ballots ineligible for recount; procedures for conduct of recount; use of computer; testing software application.

Sec. 871. (1) In a precinct using paper ballots, the board of canvassers conducting a recount pursuant to this chapter shall conduct the recount, subject to all of the following:

(a) The ballots in packages or ballot bags that are secured and sealed so that a ballot cannot be removed or inserted unless the ballot corresponds in number with the poll list delivered to the appropriate clerk by the board of election inspectors, shall be recounted even though the ballot box or other ballot container is not securely sealed with the seal of record.

(b) If the ballot box or other ballot container is securely sealed with the seal of record, only the ballots that correspond in number with the poll list delivered to the appropriate clerk by the board of election inspectors shall be recounted even though the ballots are not secured and sealed in packages or ballot bags.

(c) If the ballot box or other ballot container is not securely sealed or if the seal on the ballot box or other ballot container is not the seal of record and the ballots in packages or ballot bags are not secured and sealed so that a ballot cannot be removed or inserted, the ballots shall not be recounted and the original count of the ballots as reported by the board of election inspectors shall stand as the correct count.

(d) If the number of ballots in a secured and sealed package or bag and the number of ballots issued on election day as shown on the poll list do not match and the difference is not explained to the satisfaction of the board of canvassers, the ballots shall not be recounted and the original count of the ballots as reported by the board of election inspectors shall stand as the correct count.

(2) Except as otherwise provided in this section, the board of canvassers conducting a recount pursuant to this chapter shall recount all ballots of a precinct using an electronic voting system unless 1 or more of the following circumstances exist:

(a) The seal on the transfer case or other ballot container is broken or bears a different number than that recorded on the poll book, the breaking or discrepancy is not explained to the satisfaction of the board of canvassers, and security of the ballots has not been otherwise preserved.

(b) The number of ballots to be recounted and the number of ballots issued on election day as shown on the poll list or the computer printout do not match and the difference is not explained to the satisfaction of the board of canvassers.

(c) The seal used to seal the ballot label assembly to a voting device in the precinct is broken or bears a different number than that recorded in poll records and the ballot labels or rotation of candidates' names is different than that shown by other voting devices in the precinct and records of the board of election commissioners.

(3) In a precinct in which voting machines are used, the board of canvassers conducting a recount pursuant to this chapter shall recount all voting machines used in the precinct unless 1 or more of the following circumstances exist:

(a) All voting machines used in a precinct shall not be recounted if the sum of the numbers appearing on the public counters of all voting machines used in the precinct exceeds the total number of voters who voted in the precinct as shown by the poll book, plus the number of times the machine was operated by the inspectors of election and custodians, as shown by the record of the board of election inspectors, and the excess is not explained to the satisfaction of the board of canvassers by the inspectors of election of that precinct.

(b) A voting machine used in a precinct shall not be recounted if the voting machine is not sealed with the seal of record in such a manner as to render it impossible to vote on the machine or to otherwise change the totals appearing on the individual candidate or ballot question counters.

(c) A voting machine used in a precinct shall not be recounted if the number appearing on the protective counter of the voting machine at the time of the recount does not equal the sum of the number appearing on the protective counter at the opening of the polls as shown by the certificate of the board of election inspectors and the number appearing on the public counter at the time of the recount.

(4) In a precinct in which voting machines are used, which precinct cannot be recounted under subsection (3), absent voter ballots tallied in that precinct shall not be recounted unless recorded separately. This section does not prohibit the recounting of absent voter ballots tallied in a precinct using an absent voter counting board or in a precinct in which 1 or more voting machines are recountable, if the absent voter ballots are securely packaged and sealed.

(5) If a board of canvassers conducting a recount pursuant to this chapter determines that the ballots of a precinct are not eligible for recount under this section, the original return of the votes for that precinct shall be

taken as correct.

(6) A board of canvassers conducting a recount pursuant to this chapter may conduct a recount by the following means:

(a) A manual tally of the ballots.

(b) A tabulation of the ballots on a computer using a software application designed to specifically count only the office or ballot question subject to the recount.

(c) A tabulation of the ballots on a computer using the same software application used in the precinct on election day.

(d) Any combination of methods in subdivision (a), (b), or (c), as determined appropriate by the board of canvassers.

(7) If a board of canvassers conducting a recount pursuant to this chapter intends to conduct a recount on a computer, the board of canvassers shall first test the software application by use of a test deck to determine if the program accurately counts the votes for the office or ballot question subject to the recount. If the test under this subsection fails to show that the software application accurately counts the votes for the office or ballot question subject to the recount, the board of canvassers shall use another means prescribed in subsection (6) to conduct the recount.

Said canvassers shall have full power and authority to subpoena witnesses and to open any ballot box, regardless of the condition in which the same may be found, and may break open, if sealed, the seal thereon and examine the ballots contained therein. If, after the investigation, said board has good reason to believe that any fraud, wrongdoing or a violation of the law has been committed in respect to said election, then said board of canvassers shall forthwith make a written report of their findings to the prosecuting attorney and to the circuit judge or judges of the county where the petitioner resides if it be a county, city, township or village election, and to the attorney general and to the circuit judge of the county of Ingham if it be a district or state election. (a) The ballots from any given precinct shall first be counted and the total compared with the number of ballots issued on election day as shown on the poll list. If the first count of the number of ballots and the number of ballots issued on election day as shown on the poll list do not match, the ballots from that precinct shall be counted a second time and the total compared with the number of ballots issued on election day as shown on the poll list. If the second count of the number of ballots and the number of ballots issued on election day as shown on the poll list do not match, those ballots shall not be recounted as provided in section 871. If the second count of the number of ballots and the number of ballots issued on election day as shown on the poll list match, the ballots from that precinct shall be counted a third time and the total compared with the number of ballots issued on election day as shown on the poll list. If the third count of the number of ballots and the number of ballots issued on election day as shown on the poll list do not match, those ballots shall not be recounted as provided in section 871.

(b) If the first count described in subdivision (a) or the second and third counts described in subdivision (a) match the number of ballots issued on election day, the ballots shall be placed face up on the table and 1 recount clerk shall call the votes for each candidate or ballot question involved in the recount.

(c) Two tally clerks shall simultaneously record the called votes on forms provided for that purpose.

(3) The candidates or persons interested in the ballot question, their counsel, watchers, and talliers shall be allowed to observe each ballot as it is called and to take notes as they desire for their own records. 168.961 Recall petition; filing; receipt; duties of filing official; duties of city or township clerk; certificate; duties of village clerk; use of qualified voter file.

Sec. 961. (1) A recall petition shall be filed with the filing officer provided in section 959 or 960. The filing official shall give a receipt showing the date of filing, the number of petition sheets filed, and the number of signatures claimed by the filer. This shall constitute the total filing, and additional petition sheets for this filing shall not be accepted by the filing official.

(2) Within 7 days after a recall petition is filed, the filing official with whom the petition was filed shall examine the recall petition. The filing official shall determine if the recall petition is in proper form and shall determine the number of signatures of the petition. In determining the number of signatures, the filing official shall not count signatures on a petition sheet if 1 or more of the following apply:

(a) The execution of the certificate of circulator is not in compliance with this act.

(b) The heading of the petition sheet is improperly completed.

(c) The reasons for recall are different than those determined by the board of county election commissioners to be of sufficient clarity to enable the officer whose recall is sought and the electors to identify the course of conduct which is the basis for this recall.

(d) The signature was obtained before the date of determination by the board of county election commissioners or more than 90 days before the filing of the petition.

(3) If the filing official determines that the form of the petition is improper or that the number of signatures is less than the minimum number required in section 955, the filing official shall proceed as provided in section 963(1).

(4) If the filing official determines that the number of signatures is in excess of the minimum number required in section 955, the filing official shall determine the validity of the signatures by verifying the registration of signers pursuant to subsection (6) and may determine the genuineness of signatures pursuant to subsection (7) or shall forward each petition sheet to the clerk of the city or township appearing on the head of the petition sheet. However, the petition shall not be forwarded to the secretary of a school district.

(5) The city or township clerk shall determine the validity of the signatures by verifying the registration of signers pursuant to subsection (6) and may determine the genuineness of signatures pursuant to subsection (7). Within 15 days after receipt of the petition, the city or township clerk shall attach to the petition a certificate indicating the number of signers on each petition sheet that are registered electors in the city or township and in the governmental unit for which the recall is sought. The certificate shall be on a form approved by the secretary of state and may be a part of the petition sheet. If the recall petition is for the recall of a village official, the county clerk shall forward the petition to the clerk of the village, and the duties and responsibilities of the city or township clerk as set forth in this section shall be performed by the village clerk.

(6) The qualified voter file shall be used to determine the validity of petition signatures by verifying the registration of signers. If the qualified voter file indicates that, on the date the elector signed the petition, the elector was not registered to vote, there is a rebuttable presumption that the signature is invalid. If the qualified voter file indicates that, on the date the elector signed the petition, the elector was not registered to vote in the city or township designated on the petition, there is a rebuttable presumption that the signature is

invalid.

(7) The qualified voter file shall be used to determine the genuineness of a challenged petition signature appearing on a recall petition. Signature comparisons shall be made with the digitized signature in the qualified voter file. If the qualified voter file does not contain a digitized signature of an elector, the official with whom the recall petition was filed shall compare the challenged signature to the signature on the master card.

168.971 Special election; appointment of review team; applicability of section.

Sec. 971. (1) If the recall is successful, a special election to fill the vacancy shall be held on the next regular election date. The provisions in section 964 for calling and conducting of the recall election govern the calling and conducting of the election to fill the vacancy created, except as otherwise provided in this section.

(2) If the governor appoints a review team under the local government and school district fiscal accountability act to perform the functions prescribed in that act relative to a city, township, or village and an elected official of the city, township, or village was the subject of a successful recall, the officer with whom the recall petition was filed does not have the authority to propose a date for a special election. If the review team described in this subsection is appointed after the officer submits a proposed special election date or the county election scheduling committee schedules the special election as required by subsection (1), but before the election is held, the officer's or county election scheduling committee's action becomes void when the review team is appointed. Within 5 days after the review team described in this subsection reports its findings to the governor as required by section 13 of the local government and school district fiscal accountability act, the review team shall submit to the county election scheduling committee a proposed date for the special

election. A special election scheduled under this subsection is subject to all of the other provisions of subsection (1). This subsection applies to any special election scheduled but not yet held before April 9, 2002.
