Councilmember Daley moved that the resolution be postponed to the October 21, 1996 regular session of Council for further review by the Public Services Director and City Attorney.

two major byways of Huron Avenue and Liberty Street;
 Whereas, Crest Avenue is wholly a residential street, with the exception of a playground owned by the Ann Arbor Public Schools toward its south end; children and animals can often be found crossing or playing in the street;
 Whereas, Residents of Crest Avenue have long perceived a problem with non-local drivers cutting through their street, sometimes at unsafe and illegal speeds;

Whereas, At least one family pet has been killed by such a driver;
 Whereas, The City cannot commit the level of police presence to this location which may be necessary to fully control the potential for accidents in the area;

RESOLUTION TO SEEK ALTERNATIVES/INDIVIDUAL SOLUTIONS TO FLOODING PROBLEMS IN EVERGREEN-SCIOTO HILLS AREA

Whereas, In the spring of 1996, Councilmembers Kolb and Daley were contacted by multiple residents of the Evergreen-Scioto Hills area of Ann Arbor=s Fifth Ward, seeking help with flooding problems they were experiencing on and nearby their properties;

Whereas, Some of these flooding problems were created by the construction of the Interstate I-94;

Whereas, In an effort to resolve these flooding problems, the City=s Public Services and Water Utilities Departments outlined a series of possible solutions, which included the installation of storm sewers throughout the area, creation of a retention pond on land currently planned as a neighborhood park, directing area runoff into the Sister Lakes, and estimates of the costs involved in each of these options;

Council - October 7, 1996 27

Whereas, In an effort to gather citizen opinion on these proposals, the Public Services and Water Utilities Departments sent a questionnaire to affected property owners, asking their opinion of the gravity of the flooding problems, and whether they would support any or all of the proposed solutions;

Whereas, The response to the questionnaire was an outpouring of distress, expressed both in the responses to the questionnaire, and in numerous calls and letters to City staff and elected representatives, and focusing on:

- × no perceived need for flooding remediation
- × the desire to keep roads unpaved
- × the desire to save trees
- × the desire to develop the neighborhood park as planned
- × concern for pollution problems in the Sister Lakes

and, last but in no way least,

× the extremely high cost of the property assessment which would be levied against affected property owners, some of whom own several lots in the area;

Whereas, The Ann Arbor City Council desires to maintain a stock of housing which is affordable to all Ann Arbor citizens;

Whereas, To proceed with the options outlined by the City would be to make continued home ownership unaffordable to many residents in the Evergreen-Scioto Hills area;

Whereas, The City Council takes seriously both the need for a resolution to

the identified flooding problems, and the strong opposition to the global solutions proposed by City staff; and

Whereas, Residents of the Evergreen-Scioto Hills area desire some assurance that the City will not now or in the near future proceed with the proposed solutions and their associated funding mechanisms;

RESOLVED, That the City Council direct the City Administrator to put aside the already proposed solutions and work with property owners to seek new and different solutions to the flooding perceived as problematic by residents of this area;

RESOLVED, That consideration should be given to simple mechanical solutions which may be unique to each individual property experiencing flooding problems, and that innovative financing be considered for any solution which would place an unreasonable burden on a property owner; and

RESOLVED, That the City Attorney investigate whether the City might seek a settlement from the State of Michigan for the flooding problems resulting from the construction of I-94 and/or reimbursement for the cost of their remediation.

Councilmember Daley moved that the resolution be adopted.

On a voice vote the Mayor declared the motion carried.

Whereas, The State of Michigan Public Service Commission has allocated grant funds Áto educate the public about the use of biomass fuel for electric utility power supply through the use of an educational display;
