We can invite the local schools and students (including UM, EMU and WCC) to submit sketches and ideas for these panels. Local farms and businesses can also submit entries and/or be sponsors. Perhaps there would be "prize money" for certain entries. We could get the whole community involved...!

There would be a special committee that will review the sketches and ideas, and make decisions about the materials to be used. Grant money could be available for such a project to cover the materials, prizes and installation.

This addition to the Farmers Market will be very educational and enjoyed by everyone who comes to the market... and would certainly be a tourist attraction all year round!

Respectfully,
Linda Tenza
